

BARACUDA®

THE TRUSTED NAME IN POOL CARE

b3

The Baracuda® B3 is a light weight, compact cleaner that is easily assembled and simple to operate. The B3 contains patented diaphragm technology which provides whisper quiet operation.

The Baracuda® B3 delivers a thorough cleaning performance of the pool floor. It is ideal for collecting small leaves and most small debris.

Key Product Features & Benefits

Flexible B3 Disc

Allows for better traction on all pool surfaces. The fins and slits provide less obstruction to pool lights, raised main-drains and fittings.

Diaphragm Technology

The strong reinforced outer ribbing offers enhanced durability and delivers long lasting suction power for a cleaner and sparkling pool. It does this while providing whisper quiet operation which won't disturb the neighbours.

Thorough Floor Clean

The B3 provides a thorough overall clean of the pool floor collecting sand, silt and small leaves.

Light Weight and Easy to Maintain

The B3 is light weight and compact with only one moving part. This makes the B3 super easy to maintain. When the Diaphragm is used as instructed, it can last well beyond generic or imitation diaphragms.

Rotating Wheel Deflector

The Baracuda® B3 comes with a rotating wheel deflector which enables fluid navigation around corners, steps and ladders.

Product Specifications

- ✓ Technology: B3 diaphragm technology.
- ✓ Suitable for all in-ground and above ground pools, with 10 x 1m hose lengths included to suit 10m X 5m. Additional lengths available.
