

## DIGGERS™ Bycol (Clear & Dark)

### DESCRIPTION

**DIGGERS™ Bycol** (liquid ball bearings).

### TYPICAL USES

**DIGGERS™ Bycol Clear** is an air-entraining admixture used to improve the workability of brickwork mortars and concrete mixes.

**DIGGERS™ Bycol Dark** is the same as Bycol Clear, but is designed for use by plasterers to obtain a far smoother rendered surface.

### FEATURES

- Compensates for poorly graded sands
- **DIGGERS™ Bycol Clear** provides a more durable mortar and concrete by reducing segregation and bleeding.
- **DIGGERS™ Bycol Dark** provides a smoother finish for plaster and cement renders due to a special resin. Ideal for steel trowelling.

### APPLICATION

**FATTY Sand:** Add 25mls to the gauging water used for each 40kg bag of cement or 250mls per every 200 litres of water.

**COURSE Sand:** Add up to 50mls for each 40kg bag of cement or up to 500mls per 200 litres of water.

### SAFETY

Wear suitable protective clothing, gloves and eye/face protection when using this product.

### TYPICAL CHARACTERISTICS

Appearance

.....brown or clear pale yellow liquid

Specific Gravity..... 1.01-1.02

pH (approx.)..... 11

Boiling Point ..... approx. 100°C

**SDS** available (clear & dark)
