

Makita

18Vx2 Brushless 460mm (18") Lawn Mower

LXT

DLM464

18Vx2 18V + 18V 36V
BRUSHLESS

18Vx2 18V + 18V 36V

BRUSHLESS WHEN POWER MEANS BUSINESS

When you choose Makita Outdoor Power Equipment, you choose to be part of something bigger. Our complete line up of cordless outdoor solutions will revolutionise the way you work - empowering you with over a century of knowledge and expertise in crafting the world's most reliable tools. With the support of the world's largest 18V cordless system, you can be sure our Power Garden range will get the job done and more - no petrol or cord needed.

Product Statement

The DLM464 is powered by two 18V Li-ion batteries so you get 36V of power and runtime without leaving the 18V platform.

The heavy-duty steel deck has a cutting width of 460mm (18") and unlike its predecessor (DLM461) the motor runs at 3,300rpm the whole time while in use, providing you with maximum power throughout your job.

The mower also features a quiet mode for minimum noise output as well as allowing the user to either mulch or collect grass efficiently through the full rear chute.

DLM464 replaces the now discontinued DLM461

Product Overview

Product Specification Sheet

Grass box capacity	60L
Cutting height adjustment range	20-75mm, 10 Heights
No load speed	3,300rpm (Quiet Mode - 2,500rpm)
Max. cutting width	460mm (18")
Recommended mowing area	Up to 800m ² <small>*Measured using 2x 6.0Ah 18V batteries, results may vary</small>
Overall length	1,518mm
Skin weight	26.4kg
Weight (with battery)	27.6kg
Voltage	36V (18Vx2)

- **Water resistance rating IPX4** – lawn mower has an IPX4 rating protecting from splashing water, no matter the direction.
- **High powered motor** – motor runs at 3,300rpm as soon as you engage the blade, providing maximum power as soon as you're ready to work
- **18Vx2 Brushless Motor** – powered by two 18V Li-ion batteries providing 36V of power and runtime without leaving the 18V platform
- **460mm (18") Steel deck** – designed with a heavy-duty steel deck for increased durability
- **2 Tooth bar type blade** – excellent cutting and mulching capacity
- **Quiet mode** – reduces the rpm to 2,500 in order to significantly reduce the noise output of the mower
- **Mulch attachment** – provided as standard, providing the user the option to mulch or catch the lawn clippings
- **10 stage height adjustment from 20-75mm** – allows the user to quickly and easily change the cutting height

Advantages

Power

High powered brushless motor runs at 3,300rpm to get through tough grass

Design

Large rear chute for efficient grass collection

Durability

460mm (18") Heavy duty steel deck

Efficiency

18Vx2 Brushless motor for increased power and runtime

Weight (with battery)	27.6kg	27.6kg
Voltage	36V (18Vx2)	36V (18Vx2)

Removal of Automatic Torque Drive

The DLM461 featured Automatic Torque Drive technology which kept the rpm of the mower at a low of 2,500rpm until it encountered tough grass, which is when the rpm automatically increases to 3,300rpm.

For DLM464, the Automatic Torque Drive feature has been removed which means the mower will immediately start at 3,300rpm and stay at that level whilst in use.

~~ADT~~
AUTOMATIC TORQUE DRIVE
