Features

I Feel

Enables the remote control to measure the temperature at its current location to optimise the temperature around you.

Gentle Wind

Airflow is sent through Micro Holes for diffusion, to avoid direct air flow and provide shower style Gentle Wind.

DRED Enabled

(Demand Response Enabling Device) allows the system to reduce power consumption during peak demand periods.

24 Hour Timer

Allows you to schedule on/off times, providing convenient energy saving and personalised comfort.

3D Airflow

Vertical and horizontal swing louvers to distribute air evenly in all directions.

Self Cleaning & Sterilization

Heats the air conditioners internal components to eliminate bacteria, mold, dust, ensuring cleaner air and enhanced hygiene.
