RAW & NEUTRAL

A combination of metal and wood, exposed brick and concrete are common elements of the industrial style.

Incorporating rustic and recycled elements mated to a mature and muted colour palette is a great design preference.

Turn to natural timber-coloured doors with metal elements, such as the Illusion range for external and the Strata with metal strip range for internal.

DOOROLOGIST TIP:

"Door maintenance is necessary for long-term performance and periodic inspections are recommended. To clean your door, use a damp cloth. Do not hose or use chemicals or abrasives on your door. At the first signs of deterioration, your door should be properly refinished. Make sure that all surfaces of the door receive proper resealing and painting."

LIGHT

Natural daylight is rare for Scandinavians during the long winter months. Even during the summer, the light is softer than the bright sunlight in Australia. Therefore, the Scandi design is to let in as much natural light as possible and trap it in the home.

- ✓ Light & Bright
- ✓ Clean design
- ✓ White Colours & Natural Timber
- ✓ Comfy & Cosy

SCANDI

MINIMALIST | URBAN LUXE

The Scandi style is the hot trend of the moment. Inspired by the country-style Gustavian interiors from Sweden, the Scandinavian Modernist Minimalist movement or the Danish passion for Hygge, we can't seem to get enough of it.

SIMPLICITY

What makes the Scandi style? Is that the look is free from clutter! Scandinavians don't over-decorate, so stick to the motto of assessing a finished room and then taking one thing away. Clean lines are important to achieve this look. Consider the Nexus range for external options or explore our Lin1 and Lin10 from the internal Joinery range.
