# HATE CRACKS and call backs?

## Hardie™ Fine Texture Cladding

See how it can help you  
to save on your next job.

Achieve a modern, minimalist aesthetic with Hardie™ Fine Texture Cladding.

The smooth, natural sand texture adds warmth and diffuses light, giving your new home, renovation or extension a fine matte finish.

Hardie™ Fine Texture Cladding is a pre-textured fibre cement panel. It's durable and lower maintenance than traditional cement render to stay looking good for many years to come.

## Hardie™ Fine Texture Cladding saves you time, trades and callbacks.

**SAVE TIME**  
Clad and paint on  
same day.<sup>1</sup>

**SAVE COMPLEXITY**  
Reduces the number of  
trades on site.

**SAVE COST**  
Reduce on-the-wall  
costs compared to  
rendered blue board.<sup>2</sup>

**SAVE FROM  
CRACKS**  
Set joints replaced with  
shiplap joints.

TM and © denote trademark or registered mark owned by James Hardie Technology Limited. 1. Start painting the same day, as the board comes factory pre-sealed and pre-textured. 2. Comparison based on modelled installation costs for a fully built and painted wall (9.0 m long x 2.4 m high + 1 x door + 1 window) using data sourced from Estimates Australia. (2020).

## RECOMMENDED ACCESSORIES

### Hardie™ 9mm Aluminium External Slimline Corner

A sleek external corner that prioritises design with a sharp, minimal edge.

It holds the panels tight with just 3.5mm of coverage.

Product Code: 306102

### Hardie™ 9mm Aluminium Horizontal Express Jointer

A new horizontal flashing that creates an attractive 6mm horizontal shadow line.

To assist installation, it features an alignment tab for the top panels and a groove to conceal the edge of 8.5mm bottom panels.

Product Code: 306104

### Hardie™ 9mm Aluminium Base Trim

An elegant aluminium trim for the base which can be used to cover the slab edges or as a detail under balconies and cantilevers.

An alignment tab helps installation and creates a 6mm horizontal shadow line between the cladding and the trim.

Product Code: 306105

### Hardie™ 9mm Aluminium Internal Concave Corner

A concave internal corner that aids design and productivity.

Replace inconsistent sealant application with an aluminium extrusion with 10mm of cover to conceal panel edges.

Product Code: 306103

### HARDIE™ FINE TEXTURE CLADDING SPECIFICATIONS

PRODUCT CODE	LENGTH (MM)	WIDTH (MM)	THICKNESS (MM)
405252	2440	1200	8.5
405255	2750	1200	8.5
405253	3000	1200	8.5

# AXON™

Introduce drama and details to your walls with the clean vertical lines of Axon™ Cladding, while incorporating the beauty and fine detail of vertical painted vertical joint timber.

Utilise the sharp vertical lines of Axon™ Cladding to deliver a pristine and uniform look.

The pre-primed grooved panels are easy to install, creating an impact when utilised for external walls, upper-storey and ground-level extensions, and internal feature walls.

AXON™ CLADDING  
133mm SMOOTH

# LINEA™

A deep shadow weatherboard for contemporary homes. The clean horizontal lines of Linea™ weatherboards work beautifully on the expansive external walls of modern architecture.

Ideal for creating a Hamptons or coastal inspired look when combined with contrasting Axent Trims in new homes or renovations.

Innovative and durable, Linea™ weatherboards are resistant to shrinking, swelling or cracking and will hold paint longer than wood.

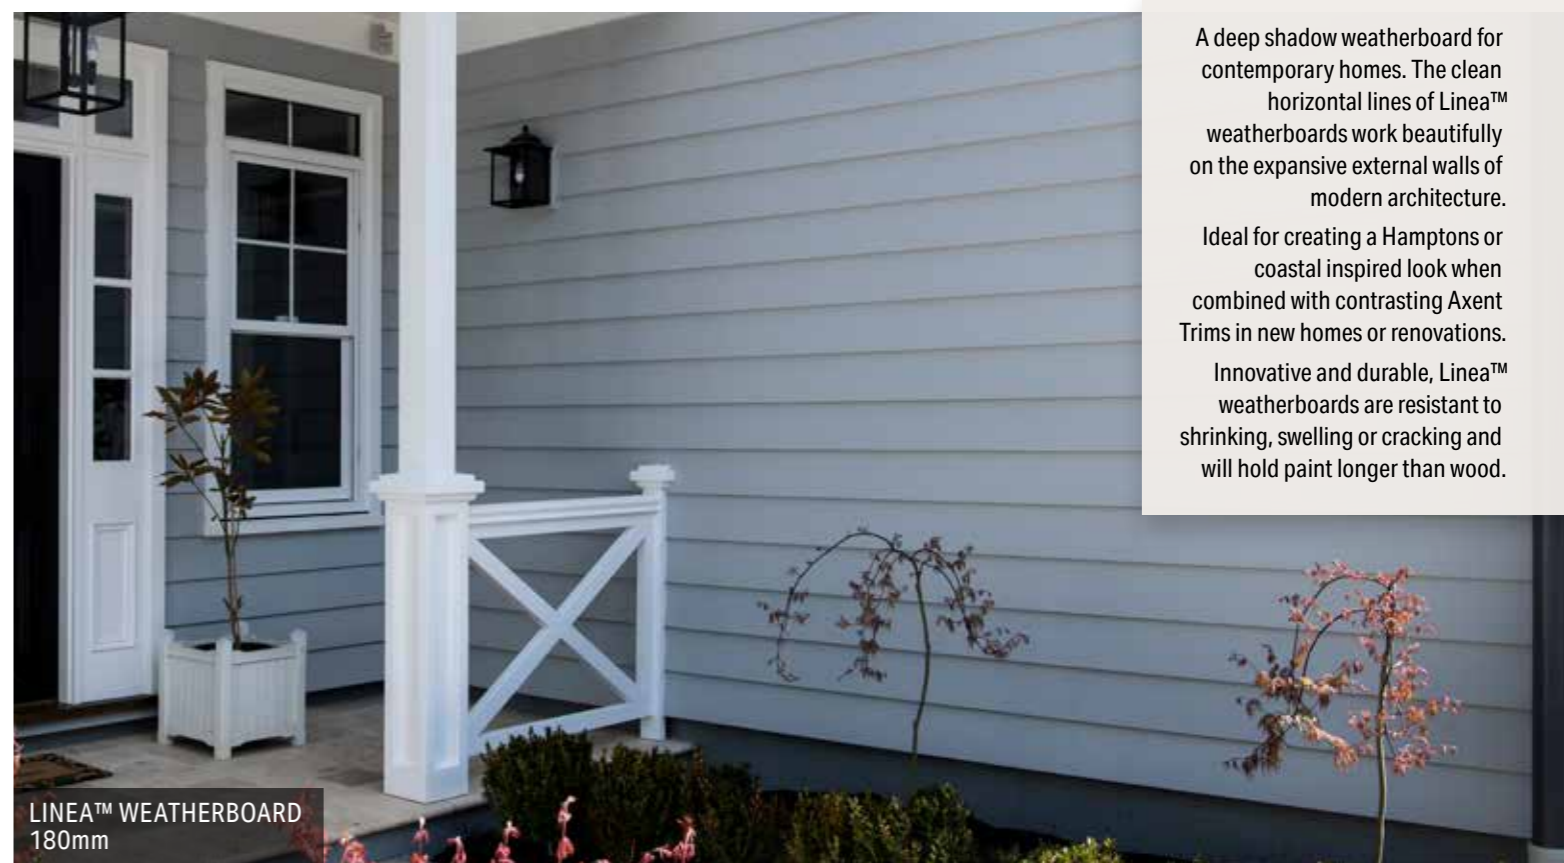

# STRIA™

Featuring deep grooves from the thick shiplap cladding boards, the Stria™ range is an easy way to get the strong horizontal cladding lines in modern home. Stria™ cladding suits contemporary looks where a bold, but pared back aesthetic is desired.

Stria™ 325mm and 405mm profiles are 14mm thick fibre cement with shiplap joints that leave a 15mm wide horizontal groove for strong clean lines.

# SUSTAINABILITY AND CERTIFICATIONS

Timber is the ultimate renewable resource and all Weathertex products are made from 97% hardwood and 3% paraffin wax.

Australian owned and manufactured with a better than zero carbon footprint, Weathertex's timber cladding is the ideal solution for any builder, architect or designer in search for a high quality cladding material that is also healthier for the environment and themselves.

All Weathertex weatherboards and architectural panels are made without any chemical additives, from certified state forest or private hardwoods across Australia.

Weathertex's timber product is termite resistant and the only product of its kind in the world, containing absolutely NO artificial glues, resins, formaldehydes and silicas.

Weathertex Natural is the first manufactured product to receive Platinum Global GreenTag Certification and the

only timber product that provides customers with a 10 year warranty not to rot, crack or split. All primed weatherboards and panels have a 25 year warranty and are finished with a waterbased lead-free acrylic primer.

With various styles, sizes and textures you are sure to find the right profile for your next project. Free product samples and Takeoffs are available on their website.

Weathertex... a better choice, naturally!

## NATURAL

The Natural range offers a unique appearance with the characteristics and looks of raw undressed timber. Its surface is pressed to create a random woodgrain effect, showing the knots, grains and imperfections of natural timber.

Natural range can be left unsealed to silver-off, stained or a combination of both to create the perfect 'look'.

WEATHERGROOVE 150 NATURAL (STAINED)

Curved walls can be achieved down to a minimum of 2.5m radius for Selflok and 7m for Weathergroove.

Weathertex products are lightweight and can be cut using standard carpentry tools. With a consistent 9.5mm thickness and matching accessories makes it easy to mix multiple profiles within a project. 1000 kg/m<sup>3</sup> product density with a minimum 32MPa rating. Watertight – mechanical flashing and joining accessories mean that sealant control joints are seldom required.

# WEATHERGROOVE

WEATHERGROOVE 75 SMOOTH

# FUSION

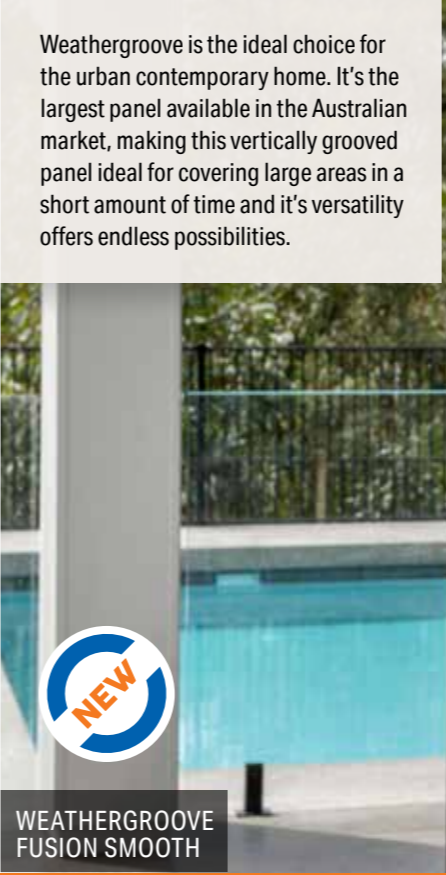

Weathergroove is the ideal choice for the urban contemporary home. It's the largest panel available in the Australian market, making this vertically grooved panel ideal for covering large areas in a short amount of time and it's versatility offers endless possibilities.
